15h30 - Registration

15h45 - Welcome Remarks

- **Maurício Quintella**, Brazil´s Minister of Transport, Ports and Civil Aviation (MTPA)

16h00 - Air Transport Regulatory Framework: Recent Evolution

The Brazilian regulatory framework for air transport has been changing to adapt to new trends in the world. Last year, Brazil launched the new General Conditions of Air Transport (Resolution ANAC 400/2016). Mr. Rodrigo Alencar will present the perspectives about ongoing frameworks and the performance of the Brazilian air transport market - domestic and international.

- **Rodrigo Alencar**, Deputy Head of Air Services Department, Brazilian National Civil Aviation Agency (ANAC).

16h30 - Brazilian Airport Infrastructure Sector

In the last six years, the most important Brazilian airports were granted to the private sector. This represented a significant increase in installed capacity, capable of absorbing the growth of passenger demand. Ms. Clarissa Barros will present the recent developments in the performance of the airport infrastructure sector and the Brazilian regulatory framework related to it.

- **Clarissa Barros**, Head of Airport Economic Regulation Department, Brazilian National Civil Aviation Agency (ANAC).

17h00 - Future Perspective of the Domestic Air Transport Market in Brazil.

Brazil has a large potential to expand the domestic market, as the results of the last ten years show. In this session, Mr. Dario Reis will assess the current changes and proposals for the institutional framework of Brazilian Civil Aviation, including regional aviation, airport network, air navigation, scope of investments, and new airport concessions for the private sector.

- **Dario Lopes,** National Secretary of Civil Aviation – Ministry of Transport, Ports and Civil Aviation (MTPA).
