ROAD CONCESSION PROGRAM – CONCESSION PROGRAM PREMISES

- Implantation of the following services in 100% of the roads:
 - Accident and incident responses (24/7 assistance)
 - Other emergency services (tow truck, towing service, etc.)
 - Provision of housing for animals
 - Weight surveillance of vehicles
 - Recurring road inspection in all highways
- Inclusion of triggers for incremental investments
- Adoption of tariff levels according to service level standards
- Modernization of the risk matrix for road concession contracts (exchange rate, financing, demand etc.)
- Investments in the maintenance and restoration of deteriorated highways
- Investments for the resolution of environmental liabilities
